

Ajay Shrestha

Kamalbinayak, 10 Bhaktapur
(+977) 9843965820 | ajayshrestha130@gmail.com

Summary

Enthusiastic and motivated BCA student with a strong academic foundation in computer applications, programming, and software development. Skilled in Java, Python, and core computing concepts. Eager to apply technical knowledge and analytical skills in practical projects and professional environments. Recognized as a quick learner with strong problem-solving skills and a continuous learning mindset

Projects

E-Commerce Jewelry Shop (Python, Django, SQLite)

- Developed a web-based e-commerce platform for jewelry products with product listing, user authentication, and shopping cart features.
- Implemented database integration for product management and order storage.
- Gained practical knowledge of the Django framework and backend–frontend integration.

Online Food Ordering System (PHP, MySQL, HTML/CSS)

- Created a food ordering web application with menu display, order placement, and a basic admin panel for order tracking.
- Learned about form handling, database connectivity, and server-side scripting.
- Practiced front-end design and back-end communication using PHP and Sqlite.
